

SECURITY 360°

Advance Threat Protection

- Botnet Protection
- Malware Analysis and Anti-Malware Solutions
- Sandboxing and Emulation
- Application Whitelisting
- Network Forensics
- Automated Security Analytics

Network Security

- Firewall Management
- Network Access Control
- Secure Network Design
- Unified Threat Management
- Remote Access Solutions
- Intrusion Detection/Prevention Systems
- Penetration Testing

Risk Governance & Compliance

- ISO 27001/HIPPA/PCI, SOC
- Firewall Compliance and Management
- Physical and Logical Reviews
- Configuration Compliance
- Audit and Compliance Analysis

Data Security

- Data Encryption
- Data Leakage Prevention

Infrastructure Security

- DNS Security
- Mail Security
- Unified Communications
- Security Information and Event Management
- Log and False Positive Analysis
- Zero Day Vulnerability Tracking

Mobile Security

- Authentication & On-Boarding
- Rogue Access Point Detection
- Wireless Secure Protocols
- OWASP Mobile Top 10
- Mobile App Automated Scanning
- Dynamic Mobile App Analysis
- Secure Coding Practices
- Mobile Penetration Testing
- Secure Code Review

System Security

- Windows/Linux Server Security
- Vulnerability/Patch Management
- Automated Vulnerability Scanning

Application Security

- Secure Code Review
- Application Penetration Testing
- Testing for Vulnerability Validation
- Secure Coding Practices
- Web Application Firewall
- Web Application Security
- OWASP Top 10 and SANS CWE Top 25
- Database Activity Monitoring
- Content Security
- Secure File Transfer
